Education

Doctor of Philosophy in Biostatistics, University of Washington, Seattle, WA *Sept. 2019 – Present*

Dissertation: Statistical Methods for Assessing COVID-19 Vaccine Effectiveness and Immune Correlates in Test-Negative Design Studies

Advisor: Dr. Peter Gilbert

Master of Science in Biostatistics, University of Washington, Seattle, WA *Sept. 2019 – Dec. 2024*

Advisor: Dr. Peter Gilbert

Bachelor of Arts in Mathematics and Chemistry, St. Olaf College, Northfield, MN *Sept. 2015 – May 2019*

Concentration: Statistics

Honors: Summa Cum Laude

Research Experience

COVID-19 Prevention Network, University of Washington, Seattle, WA

Graduate Research Assistant, Advisor: Dr. Peter Gilbert

Mar. 2023 – Present

- Develop robust causal methods to assess COVID-19 vaccine effectiveness and immune correlates of protection in test-negative design (TND) studies
- Extend targeted maximum likelihood estimator that allows for confounding control using machine-learning and missing data to TND setting
- Construct negative control methods that account for unmeasured confounding, selection bias, and missing data
- Assess TND and statistical methods using randomized placebo-controlled trials resampled as TND studies

Laryngeal Cancer Voice Rehabilitation, University of Washington, Seattle, WA

Graduate Student Consultant, Project Leads: Dr. Cassie Pan and Dr. Zain Rizvi

Apr. 2022 – Dec. 2023

- Analyze data from electronic health records of patients who underwent total laryngectomy
- Conduct exploratory analysis in R to assess clinical and surgical characteristics that are associated with successful electrolarynx use

Biostatistical Consulting Course, University of Washington, Seattle, WA

Mar. – June. 2022

Graduate Student Consultant

- Collaborated in three-person teams to provide statistical support to 23 clients from various disciplines
- Discussed client's research questions and advised on study design, statistical methods, and data presentation
- Wrote consulting session summaries with client-specific recommendations and references

Multi-Ethnic Study of Atherosclerosis Compliance, University of Washington, Seattle, WA

Graduate Research Assistant, Advisors: Dr. Lyndia Brumback and Dr. Robyn McClelland *Sept. 2019 – Mar. 2023*

- Analyzed data collected from longitudinal Multi-Ethnic Study of Atherosclerosis using R and STATA to understand the pathophysiology of hypertension and its relation to arterial stiffness
- Investigated how calcification, arterial stiffness, and blood pressure sidedness differences can inform risk assessment for hypertension, atherosclerosis, and cardiovascular disease

Design of Medical Studies Course Project, University of Washington, Seattle, WA
Study Statistician

Mar. – June. 2022

- Collaborated in five-person multidisciplinary graduate student team to develop grant proposal to design, implement, and justify a clinical trial study and defend proposal to professors and students at mock site visit
- Proposed phase 2 double-blinded, randomized, placebo-controlled trial to investigate famotidine on right ventricular failure in pulmonary arterial hypertension patients

Neurology Intensive Care Units Palliative Care, University of Washington, Seattle, WA
Graduate Research Assistant, Advisor: Dr. Claire Creutzfeldt and Dr. Lyndia Brumback

Jul. – Oct. 2020

- Analyzed data collected from prospective cohort study of patients and families in the Neurosciences and Medical/Cardiac Intensive Care Units using R and STATA
- Investigated discordance between family members and physicians' patient prognosis predictions
- Identified patients and families at risk for poor health outcomes and processes of care

Research Experiences for Undergraduates Program in Mathematics, IUPUI, Indianapolis, IN

Applied Math Undergraduate Researcher, Advisor: Dr. Julia Arciero

Jun. – Jul. 2018

- Optimized parameters in existing ordinary differential equations model of murine heart transplant rejection in MATLAB using Monte Carlo methods
- Adapted model to simulate regulatory T cell (Treg) adoptive transfer and immunosuppression (IS)
- Varied Treg delivery and discovered optimal dose minimizes initial graft destruction and maximizes endogenous Treg activation
- Varied Treg delivery, IS class, and IS dose to determine optimal combinatorial treatments that prevent graft rejection and minimize IS dose

Mathematics Practicum, St. Olaf College, Northfield, MN

Professional Data Analysts, Inc. Researcher, Advisors: Dr. Paul Roback and Dr. Jill Dietz

Jan. 2018

- Collaborated with undergraduate team to evaluate smoking cessation rate accuracy given increasing nonresponse rates in Quitline follow-up surveys
- Generated simulation in R that compared accuracy of responder, intent-to-treat, and weighted quit rate confidence intervals based on varied population size, sample size, response rate, and nonresponse bias
- Visualized simulation results in Shiny application and co-authored report on findings

Nephrology and Urology Summer Undergraduate Research Fellowship, Mayo Clinic, Rochester, MN

Biochemistry and Molecular Biology Undergraduate Researcher, Advisor: Dr. Carli Sussman

May – Aug. 2017

- Developed *phosphodiesterase 3a (pde3a)* knockout in *Danio rerio* embryos to determine relevance of Pde3a in Polycystic Kidney Disease (PKD)
- Used CRISPR/Cas9 technology to target catalytic domain of Pde3a
- Amplified hydrolytic domain, conducted restriction enzyme digest, and performed gel electrophoresis to assess mutation efficiency
- Extracted, sequenced, and analyzed DNA using Mutation Surveyor to identify mutations

Collaborative Undergraduate Research and Inquiry Program, St. Olaf College, Northfield, MN

Molecular Biology Undergraduate Researcher, Advisor: Dr. Kim Kandl

Jun. – Aug. 2016

- Studied role of SUMOylation in vegetative growth, mitosis, meiosis, and DNA repair in *Tetrahymena thermophila* using *ulp1* and *ulp2* knockdown strain
- Used RT-qPCR to quantify relative gene expression of *ulp1* and *ulp2* gene knockdowns in *Tetrahymena*
- Contributed to creation of construct to fluorescently tag ULP1 and ULP2 in *Tetrahymena*

Innovative Minds Partnering to Advance Curative Therapies Program, Mayo Clinic, Rochester, MN

Undergraduate Researcher, Advisor: Dr. Kim Kandl

Nov. 2015 – Mar. 2016

- Researched scientific literature to hypothesize the pathophysiology of Hypoplastic Left Heart Syndrome (HLHS) and propose experiment to test hypothesis using regenerative medicine
- Linked genetic and environmental factors to predict blocked gap junction channels in neonatal cardiomyocytes disrupt cardiogenesis
- Co-authored report and selected to deliver oral presentation at Mayo Clinic in Rochester
- Awarded silver medal out of twenty teams for HLHS category

Teaching Experience

University of Washington, Department of Biostatistics

Teaching Assistant

Jan. – Mar. 2023

- BIOST 537: Survival Data Analysis in Epidemiology

St. Olaf College, Department of Mathematics, Statistics, and Computer Science

Teaching Assistant

Feb. 2018 – May 2019

- MATH 242: Modern Computational Mathematics
- MATH 330: Differential Equations II

October 2018.

Technical Skills

Statistical Skills: Causal Inference, Missing Data, Targeted Maximum Likelihood Estimation, Machine-Learning, Generalized Linear Models, Generalized Estimating Equations, Mixed-Effects Models, and Survival Analysis

Computer Skills: R, MATLAB, Mathematica, STATA, LaTeX, Mutation Surveyor, Benchling, Chimera, SCIGRESS, MEGA7, Zotero, Endnote, and Excel

Laboratory Skills: CRISPR/Cas9, protein tagging, gene cloning, DNA extraction, gel electrophoresis, PCR, RT-qPCR, gene sequencing, immunofluorescence, chromatography (column, thin layer, paper, high pressure liquid, size exclusion), GC-MS, NMR, IR, UV spectroscopy, spectrophotometry, and differential scanning calorimetry

Honors and Awards

Student Most Outstanding Paper , Western North American Region of the International Biometric Society	2024
Graduate School Conference Presentation Award , University of Washington	2024
GSFEI Top Scholar Award , University of Washington	2019
School of Public Health Award of Excellence , University of Washington	2019
Phi Beta Kappa , St. Olaf College	2019
Phi Lambda Upsilon , St. Olaf College	2019
Pi Mu Epsilon Honors Society , St. Olaf College	2018-2019
Mayo Clinic IMPACT Silver Medal , Mayo Clinic	2016
Buntrock Scholarship , St. Olaf College	2015 – 2019
Cassler Scholarship , St. Olaf College	2015 – 2019

Professional Affiliations

American Statistical Association , Student Member	2024 – Present
Western North American Region of the International Biometric Society , Student Member	2021 – Present
Society for Causal Inference , Student Member	2024
Association for Women in Mathematics , Student Member	2018 – 2019
Mathematical Association of America , Student Member	2017 – 2019

Editorial Responsibilities

Statistics in Medicine , Referee	2024, 2025
The Journal of Infectious Diseases , Referee	2023
NPJ Vaccines , Referee	2023
BMC Public Health , Referee	2020

Languages

English: Native
Spanish: Intermediate
Chinese: Basic

Campus Involvement

University of Washington, Seattle, WA

- Biostatistics Activities and Events Squad *Apr. 2021 – Present*
- Intramural Soccer *Apr. 2022 – Aug. 2024*
- Biostatistics Peer Mentoring Program *Sept. 2020 – Aug. 2024*
- Biostatistics Student-Invited Speaker Committee *Oct. 2023 – Feb. 2024*
- Graduate and Professional Student Senate *Oct. 2020 – Sept. 2021*
- Board Games at UW *Jan. 2020 – Jun. 2021*
- Chamber Music Club at UW *Sept. 2019 – Mar. 2020*

St. Olaf College, Northfield, MN

- St. Olaf Orchestra *Sept. 2015 – May 2019*
- St. Olaf Public Safety Dispatch *Sept. 2015 – May 2019*
- Intramural Soccer *Sept. 2015 – May 2019*
